Choosing the Right Visualization

Choosing the Right Visualization

COMPARISON

Use these visuals when you want to display measures compared by its magnitude.

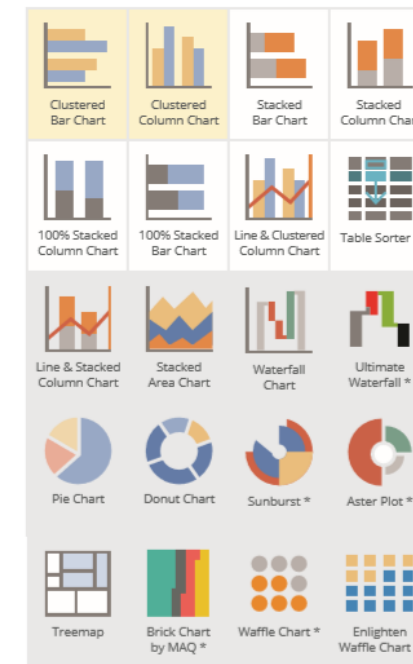

CHANGE OVER TIME

Use these visuals when you want to display the changing trend of measures.

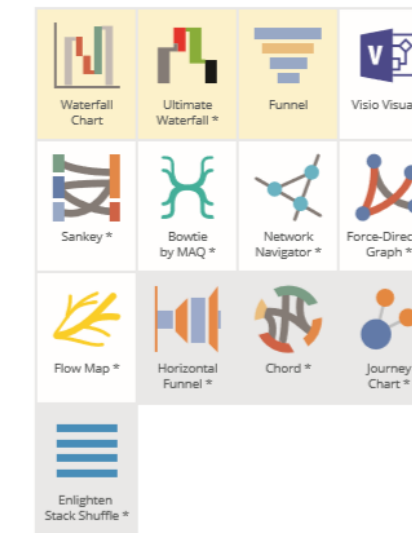

PART-TO-WHOLE

Use these visuals when you want to display parts that compose measures.

FLOW

Use these visuals when you want to display a flow or dynamic relations.

RANKING

Use these visuals when you want to display measures by its rank order.

SPATIAL

Use these visuals when you want to display measures over spatial maps.

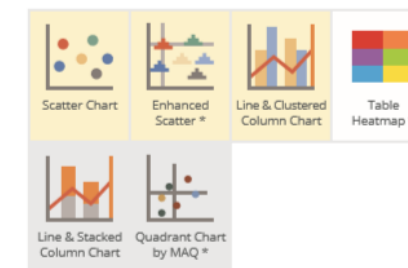

DISTRIBUTION

Use these visuals when you want to display the distribution of a measure.

CORRELATION

Use these visuals when you want to display relations between measures.

SINGLE

Use these visuals when you want to display a single value.

Choosing the Right Visualization

COMPARISON

Use these visuals when you want to display measures compared by its magnitude.

CHANGE OVER TIME

Use these visuals when you want to display the changing trend of measures.

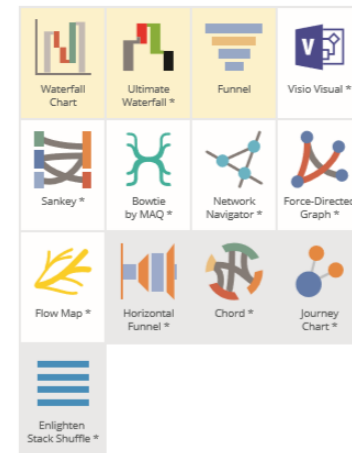

PART-TO-WHOLE

Use these visuals when you want to display parts that compose measures.

FLOW

Use these visuals when you want to display a flow or dynamic relations.

RANKING

Use these visuals when you want to display measures by its rank order.

SPATIAL

Use these visuals when you want to display measures over spatial maps.

DISTRIBUTION

Use these visuals when you want to display the distribution of a measure.

CORRELATION

Use these visuals when you want to display relations between measures.

SINGLE

Use these visuals when you want to display a single value.

Choosing the Right Visualization
